"LIVE AND LET LIVE."

CONN BROTHERS.

Lancaster, Ky.

More water in the creeks last Saturday than since last April.

The mercury tumbled 28 degrees last Friday, that's dropping some.

Hoosier Kitchen Cabinet for sale. Never used. Call this office.

Several more feet of water added to the supply stored in Lake Placid.

What has become of that new stray pen we were promised some months ago?

Six good two year old mules will loan to be broken. Phone 65. J. E. Robinson.

The man who was contemplating gardening last week has put it off awhile.

An eventful month, Ground Hogs day, St. Valentine's day and Washington's birthday, all in February.

The cold snap was doubtless a God send to the fruit, which was seriously contemplating donning spring attire.

The park fence on Saturday afternoon very much resembles an old fashioned hitching rack in front of a country store.

The amount of damage done the turnpikes hauling tobacco to adjoining markets would furnish a neat sum toward building a home warehouse.

Cheap rates, cheaper than ever known; for daily papers are prevalent during the remainder of this month. Better subscribe for your daily paper for the year now. Ask the Record office about it.

The Ladies of the Pleasant Grove Church will give a Valentine social, Friday evening, February 13th, from 6 to 10 o'clock at the home of Mr. Walter Davis. A nice lunch will be served for 20c. Everybody invited to help a worthy cause.

The large plate glass windows in J. W. Smith's windows, which were broken by a runaway horse have been replaced. The damage amounted to about \$250. while the horse was worth a fifth as much. Moral: Don't leave horses on the square unhitched and unattended.

Notice To Teachers.

All teachers are urgently requested to have their reports and record books signed by their trustees and chairman and bring same to my office at once. I expect the last draft for teachers money by February 14th and cannot pay teachers until they meet with the above requirements.

Miss Jennie Higgins.

Rather Unusual.

February comes in on Sunday this year, and there will be in the month four days of each of the week. This is very unusual, some statisticians please figure out when it ever happened before or when it will happen again.

Mr. Alex. Bishop Improving.

Mr. Alexander Bishop who suffered a partial stroke of paralysis last week, is improving rapidly and is able to sit up and walk about the house, and it is thought that he will suffer no bad effects from the stroke.

Leading Real Estate Man.

Hon. G. Bright Swinebroad, a leading attorney, of Lancaster, was here yesterday. In addition to his work as attorney, he is connected with Judge M. D. Hughes is one of the most successful real estate agencies in Kentucky. -Messenger.

No Bond Issue For Pulaski.

A report is going the rounds of the state press to the effect that Pulaski will vote on a \$300,000. bond issue for road purposes. The Somerset Journal denies the correctness of the report and takes occasion to say that "Pulaski DID vote on a \$200,000. bond issue a few years ago for this specific purpose, and it was buried so deep by the voters that it will probably take twenty five years to dig it up".

That Extra Help Resolution.

Governor McCreary permitted the extra help measure to become effective without his signature. In a communication to the Legislature he expressed the belief that both houses should have such help as was necessary to the facilitating of business, and he did not feel it incumbent upon himself to delay the business of the houses by vetoing the measure. He withheld his signature however giving as his reason that "the joint resolution appears not to be in accord with the constitution of Kentucky."

Near An Epidemic.

The few warm, springlike days of last week near caused a breaking out of an epidemic of "fishing fever" in Lancaster. Ed. Morrow even went so far as to negotiate with a well known colored man to secure him a bucket of minnows, and to fix the day to "go to the Fork", but when that day came it was ushered in by a gale blowing at the rate of eighty miles an hour and felt like it was direct from Greenland, and Mr. Morrow has concluded to at least wait and see what will be the outcome of the groundhogs prophecy.

SENTENCED TO BE HUNG WALL PAPER. By Hurt & Anderson.

Goes After Movies.

Mr. W. J. Romans, of Lancaster, was here yesterday en route to Cincinnati. Mr. Romans owns the Lancaster opera house and in connection there with his moving picture show. He went to Cincinnati to purchase more equipment. Mr. Romans has one of Lancaster's most progressive business men. He has one of the largest carriage-builders' establishments in Kentucky. -Messenger.

You'll Never Miss "That Old Dollar".

At a dollar a year you simply can't afford not to have the Central Record in your home. You owe it to yourself to watch our merchants advertisements and see where you can buy the cheapest. You owe it to your family to keep in touch with other people. After taking our paper if you say it does not give you the news and is not worth one dollar we will give you "That Old Dollar" back.

Six Weeks Bad Weather In Store For Us.

The sun rose about seven o'clock on the morning of the second of the month, and the Ground Hog was up early and had his weather eye open for the first gleam of old Sol, and at the appearance of the first rays he darted back into his hole. According to the traditions which have been instilled into us from our infancy, we are now doomed to experience "six more weeks of bad weather."

Stock Yards Now Ready For Business.

Elsewhere in this issue of the Record will be found the advertisement of the Lancaster Stock Yards. These Yards are among the best equipped in the state, manager Ross having recently made extensive improvements, among which are facilities for providing shelter for 600 head of stock, lots of good pure water and food for all who wish it. With these modern and splendidly equipped yards, Lancaster is destined to become one of the leading stock markets in this part of the state.

Intricate Job.

Mr. George W. Palmer, under commission from the City Council, has just completed the task of auditing the books of ex-treasurer D. A. Thomas and Chief Herron for the past two years. Mr. Palmer found all of the accounts in splendid shape, and while at the close of the last year there was a discrepancy of a few cents, it was on "the long side" or in favor of the city. The work was done at the request of Chief Herron and because of the turning over of the treasurers hooks to his successor by Mr. Thomas.

Center-Wages.

At his home in this city on Monday morning Bro. Tindler said the words which united for life Miss Nannie K. Center and Mr. Thomas B. Wages. The bride is an estimable young woman of the Cartersville section, and is a sister of the Center Bros., the well known stockmen and farmers of the county. The groom formerly resided in Garrard county but removed to Eads Okla. and immediately following the ceremony the couple took their departure for that point where they will make their future home.

Manuel-Ball.

Last Wednesday Evening at five o'clock Mr. William Ball and Miss Nellie Manuel were quietly married at the home of the brides brother Mr. L. Manuel on Hamilton Ave.

The bride is the youngest daughter of A. J. Manuel and is very attractive young lady, and the groom is the eldest son of Mr. Arthur Ball and is a well respected young man.

The Rev. F. M. Tindler performed the ceremony which made them husband and wife.

Their many friends wish them a long and happy life.

Dalton-Cormey.

Miss Mary Linda Dalton and Benjamin F. Cormey motored to Danville on last Thursday afternoon, where in the study of Rev. H. C. Garrison, "pastor of the Christian church, that gentleman officiating, they were made man and wife. The bride is sixteen and the groom twenty three and are among Lancaster's most highly respected young people. The bride is the daughter of Mr. and Mrs. James H. Dalton and is a beautiful and attractive young girl. She has but recently completed her studies at Hamilton College. The groom is employed at the Lancaster Electric Light Plant, and is one of Lancaster's most industrious and highly respected young men. The young couple have taken rooms temporarily at the home of Mr. Wesley Walker on Danville street, but will in the early spring go to housekeeping. The Record joins their numerous friends in congratulations and well wishes.

Four Feet And Still Coming.

The rain of last Friday put about four feet of water in Lake Placid and two streams are still feeding it, so this added to the amount already on hands makes a pretty good start toward replenishing our sadly depleted water supply. The water is above the point where an old and very obdurate leak was repaired in the dam, and it holds nicely, so there is no danger of loss from leakage in the future.

A Peculiar State Of Affairs.

Williamsburg, county seat of Whitley county and one of the leading cities in eastern Kentucky, is without a city government or city officers. The new council elected last November has failed to organize, three of them being friendly to the newly elected Mayor and three antagonistic to him. In consequence, they have not chosen a city marshal, attorney, treasurer or other officers.

Victims Of Accident All Improving.

All the victims of the motorcycle accident of a week ago last Sunday are improving, nicely, the most seriously injured one, Jimmie Hilton, showing marked improvement and his recovery seems now a certainty. Dr. Denny is able to be up and around, although showing the marks of his experience. Messrs Dave Walker and Charles Zano have about recovered from their scare, but say they do not care for another like experience.

A \$'s Appeal.

There is a little matter to which the RECORD begs to call the attention of some of its subscribers. We really hate to speak of it, but some have seemingly allowed it to slip their minds. To us this is a very important issue; in fact, it is necessary in our business. We won't speak further on the subject, perhaps you have already guessed the drift of our remarks.

Some didn't catch the drift of our remark\$ last i\$\$ue, \$o we a\$\$k in plain language-----Plea\$\$e \$end u\$ that \$ you owe u\$.

Richmond Now Has A Military Company.

On last Friday Adj't. General J. Tandy Ellis and Lieut. Norman of Frankfort mustered into commission a company at Richmond, to become a part of the Kentucky State Guard. W. Broadus was elected Captain and Stonewall Norman, a former Garrard county boy was chosen first lieutenant. We at one time, many years ago, had a military organization in Lancaster, and while the boys did not engage in actual war, they had several assignments to active duty, and from the reminiscences which are yet heard occasionally they certainly had an interesting experience.

Loses His Meat.

On last Thursday night, or rather early Friday morning, between 12 and 1 o'clock the smoke house of Mr. G. S. Greenleaf was discovered to be on fire, and owing to the lateness of the hour it was destroyed before the department could get the hose turned on it. Mr. Greenleaf and Mr. H. C. Kauffman had each provided a large hog for their meat supply, and these were almost a total loss. The fire originated from Mr. Greenleaf following the old time custom of "smoking his meat" by making a fire in a large kettle in the middle of the smokehouse floor, this fire was left over night and the kettle became over heated and set the floor afire. The smokehouse was in fifteen feet of the dwelling, and but for the fact that a heavy rain was falling and the wind was from the north, the residence also would have been destroyed.

Civil Service Examination For Railway Mail Clerk.

The U. S. Civil Service Commission has announced an examination in Lexington on February 21st for those desiring positions in the Railway Mail service. From the number who pass this examination successfully will be made an eligible list from which will be chosen men to fill vacancies that may occur in the postal service. All applicants must be between the ages of 18 and 35 and not weigh less than 130 pounds. Applicants will be examined in Geography of the United States, spelling, arithmetic, penmanship, letter writing and copying from plain copy.

Shooting Near Paint Lick Proves Accidental And The Victim, Russell Holman, Recovering.

Judge C. A. Arnold had before him on last Thursday a brother of Jesse Dozier, both of whom were in company with Russell Holman one night last week, when the latter received what was at first thought to be a mortal wound. It developed that Holman received the wound at the hands of Jesse Dozier and that the shooting was purely accidental, and the investigation in so far as this phase of the case is concerned was dropped. However, a warrant was taken out for Dozier for shooting on the public highway, and this charge will be prosecuted. Dozier is in Madison county, not a fugitive from justice however, and will come in due time and stand his trial. Holman, who at first was thought to have a mortal wound, was not as seriously injured as was announced, but is doing well and his recovery is only a matter of time.

A Treat In Store For The Literary And Music Loving People Of Lancaster. Ridpath's Chautauqua Course To Be Here This Summer.

It will indeed be a source of great pleasure to the people of Lancaster and Garrard county to know that we are to have a Chautauqua Course in Lancaster during the coming summer. The dates have not been finally fixed, but it will probably be during the last week in June or the first week in July. Twenty progressive business men and citizens of Lancaster have made this possible by each guaranteeing to the Chautauqua company the sum of twenty dollars each, and they will depend upon the sale of tickets to save them from loss because of their progressiveness in making it possible to have this splendid attraction. The tickets will be placed on sale in the near future and everyone who purchases or binds themselves to purchase, may rest assured that it will be money well spent. Many of our people go a great distance each year in order to attend these Chautauqua gatherings, and many of them have seen the one which is to appear here, which is Ridpath's, and is given up to be the best on the road. The course will be a five day one, two attractions each day, afternoon and evening, and one can ill afford to miss a single one of the attractions, for all are of the very highest class obtainable.

We give below a list of attractions, which is subject to revision and addition, but you may rest assured that no revising will detract from the splendid list of attractions.

Lecturers—Gov. Joseph W. Folk, George L. McNutt, Dr. J. G. Whiting, one other to be supplied.

Entertainers—Reno, Magician for children night, Willa Watson Ginn, Reader and Impersonator from extension department, University Wisconsin, Miss Lacy, Interpreter of plays in "Everywoman".

Music—Dante's band in two concerts afternoon classical, evening popular. 25 members, The Anitas, a ladies singing orchestra, The Bolandus, a family orchestra, the Collegian Male Quartette, the Boyds, Novelty musical company.

The musical organizations will give a 30 minutes concert as a prelude to each lecture and entertainment.

All the attractions listed on the above programme will positively make their appearance.

This is an attraction such as Lancaster has never had before and should have the unstinted support of the entire community. These Chautauqua companies carry their own large water proof tent, and every convenience is provided for the comfort of the audience.

These Chautauqua courses have been held in adjoining towns and in towns of the size of Lancaster throughout the state for a number of years, and we have often thought that Lancaster would support one. There are as many cultured, literary and music loving people in Garrard as in any of our adjoining counties, and they will now have an opportunity to enjoy a first class attraction at home.

House For Rent.

Having decided to leave Lancaster, will rent my house of twelve rooms, two porches, barn with five stalls, good garden and large yard.

1-23-3t Webb Raney, Lancaster Ky.

Your account is already past due, please come in and settle.

Miss Rella Arnold.

Notice

To our Friends and Patrons

We take this method of thanking you for your kindness in responding to our call of January 1st.

Permit us to now return the favor in the following way.

Having our accounts paid up to date, we are better able to meet our bills and consequently better able to buy better goods and buy in larger quantities.

We have found that the best goods are always the cheapest to our trade and the kind that acts as salesman for our house.

When we are able to buy in such quantities we, of course, buy in such a way as to compel the jobber to pay the difference between cheaper goods and the best, and in this way we can assure you that for the new year we can quote you in accordance with the above.

Quality bought in quantity finds no competition in a cheaper grade. Let us show you.

Again thanking you for your patronage for the past and trusting that we can serve you throughout the year, we are, very truly yours,

HASELDEN BROS.

The Lighthouse of the North

An Audacious Hazard of Nikolai, Independent Agent, as Related by His Lieutenant, Summers
By H. M. EGBERT

(Copyright, 1913, by W. G. Chapman)

Our little yacht cut gallily through the great waves that rolled in an unceasing surge off the great North cape of Norway. It was the end of September; the nights and days were equal, but a blue line on the horizon betokened the approach of the Arctic ice-pack that would soon descend to seal that silent coast until the following spring. Nothing could exceed the loneliness and desolation of the sea-scapes; not a sail or line of smoke was visible. Far on our starboard lay the Norwegian coast.

There were six of us aboard with Nikolai. We were all consumed to know the reason for our presence in those cold waters, far from civilization. This was the day on which we were to be told, Nikolai assembled us on deck—we were all members of the international league—and broke the seal of a document.

Then he read out the orders. "Satcha Alexandrovitch, with five other revolutionary patriots, is on his way to Archangel aboard the Potemkin," he told us.

Our mission was to rescue them. For these men had been the hope of Russia and of freedom through many stormy months; at last, treacherously betrayed to the millions of the tsar, they had been sentenced, after a mock trial, to perpetual banishment in the frozen wastes of northern Russia, where no man ever lived long enough to communicate with his friends again. It was a sentence of death in the penal settlement there.

And on the following day the cruiser Potemkin would round the great cape on her journey into the White sea, the last before the closing in of the ice, bearing her victims.

Afterward, Nikolai communicated to me his plans, as we sat side by side within the cabin, studying the charts.

"Here we shall intercept her," he said, pointing to a dot off the coast. "And all her guns and complement of soldiers and sailors will never save her."

He unfolded his scheme. "Here is the lighthouse," he said. "Its light, burning steadily, alone makes possible a voyage between those rocks and shoals. We shall destroy the light; the ship, misled, will be buffeted to pieces upon the rocks. The prisoners have been warned. They will escape in the confusion. Perhaps they will perish; but the chance is better than the certain death which awaits them."

It was a desperate undertaking, the little yacht against the armored battleship, but none of us thought of that. Our hearts were elated with the magnitude of our task. That night, running in close along the rocky shore, we sighted the lighthouse.

It was of the old-fashioned type. The lenses did not revolve, but a steady stream of light issued through them on three sides, shooting out like a warning finger far into the darkness.

"We shall shoot out the glasses," I said to Nikolai. "Perchance, if we shoot out the central lens, no light visible from a distance will issue. The Potemkin will sail to her destruction."

Nikolai smiled rather sadly.

"We cannot approach that coast within two thousand yards," he answered. "And, at that distance, no rifle bullet would penetrate those thick lenses. Moreover, at such a distance, who could hit a beam of light by night—or even the lighthouse, by day, clothed, as it always is, with perpetual sea-fogs?"

"What then?" I asked.

"We must take it by storm," he answered. "It is guarded by three soldiers—veterans of the Imperial Guard. Russia leaves little to chance. It must be captured."

That night the lighthouse was to be rushed. There was no other way. At dark we took our way in toward the shore cautiously by means of the lead; we anchored at a distance of a mile and a little more, and leaving two men aboard, the five of us remaining rowed cautiously through the rocks.

More than once our little boat upset, leaving us clinging to the sharp, needle-pointed crags. But each time we recovered ourselves, by some fortuitous miracle. At length, dripping, frozen and utterly exhausted, we reached the rocks on which the great lighthouse stood. It towered above us, a veritable colossus of masonry; and from its summit the steady beams of light poured forth on three sides through the fogs. And now I perceived why my suggestion could not have been carried out. The lenses were set back into the masonry, so that no rifle bullet could have been aimed at them from the base of the cliffs. Only far out at sea would they become accessible, and there, as Nikolai had said, they could not have been pierced.

We had brought cutlasses and revolvers. At a word from Nikolai we crept cautiously across our slippery foothold until we reached the iron-bound door at the base of the tower. Faintly within we heard two watchmen singing a peasant song.

"Now, men," said Nikolai, "it will be useless to knock. Nobody will open

woman, of mature years, but bearing the marks of great beauty and dignity, despite the prison pallor of her face.

"In the name of God, who are you, friend?" asked Nikolai.

"I am Adam Gortchakoff," answered the old man, opening his eyes.

I saw Nikolai start back and clap his hand to his forehead.

"How long have you been confined here, Adam Gortchakoff?" he asked with a quivering voice.

"Twelve years," the old man answered. "And my daughter also."

"God help you," muttered Nikolai. Tears welled into his eyes. "Russia has not forgotten you," he said, raising the old man's hand to his lips.

"Nor you, madame. But we thought you had died in Archangel."

"There were twelve prisoners here when I arrived," said the woman in French. "My father and I have alone survived."

"Does Nicholas Stambuloff still work for Russia?" she asked.

"He is still our hope and Russia's hope," said Nikolai. Then, hastily, he began telling them of the desperate chance that had led us hither. "Can you endure your chains for a few hours longer?" he asked.

"We have endured them twelve years," answered the woman; and she bent over her father and pressed a damp sponge to his lips. The sight was inexpressibly painful to me; for the first time I began to understand

that we had discovered the location of their captives; this explained their desperate efforts to regain the lighthouse. They had abandoned the attempt, knowing of the death of two of our men, and had resolved to make by boat for the open sea.

But they had known nothing of our yacht. The men whom we had left there, seeing the soldiers advancing in their boat through the fog, had believed them to be us; they themselves were not seen by the soldiers, who, in rowing, naturally had their backs toward the open sea. Thus the two parties ran into each other's arms. Cut off from the open sea, the soldiers had nowhere to escape; on the other hand, the men in the yacht, anxious to learn our fate, opened a parley with them, being all Russians and from the same territory. In the end it was recognized that a truce must be effected until the fortune of war should decide for one side or the other. This was satisfactory to the soldiers, but more so to us, who knew of the approach of the Potemkin.

"Fools that we were," said Nikolai to me. "Had we known what we know now we should have let the Potemkin land her new captives here, concealing our yacht in the offing, and when she had departed, we should have taken them with us and sailed away. Now all is lost. The vessel will pound to pieces on the rocks and our captives will die with the crew. Or if they land, we shall encounter

searchlight shone straight out to sea. It was a little after midnight when, through the thick mists that enfolded us, we heard the booming of guns. One, two, three—and silence. Then the signal was repeated.

It was the Potemkin.

We put our three friendly enemies down in the vaults, first exchanging clothes with them. They went readily enough, when we had explained to them that their imprisonment was only temporary, until after the vessel's departure. Then three of us, dressed in the Russian uniform, with the two other men in the rear of us, waited for the arrival of the boat.

It seemed an endless interval—it was really about an hour before the ship's boat grated against the rocks. She carried the six prisoners, chained, with six armed guards. Nikolai welcomed the sailors in their native tongue. They advanced, entirely unsuspecting. Then, in a trice, we had sprung on them and disarmed them. So sudden was our attack that they attempted no resistance; they stood staring at us, foolishly grinning. The prisoners were no whit less astonished.

I did not admit Nicholas Stambuloff to see his bride, as Nikolai wanted. The shock would have been too sudden for both of them. We kept her away from her father; he still required her constant attention, although the hope of freedom had wonderfully fanned the flickering flame of life. But he would live now; he

"Twelve years ago my bride, married a week to me, was snatched from my arms and carried off to a dungeon by the soldiers of Russia's tyrant. I never saw her face from that day to this. After a mockery of a trial she was found guilty of conspiring against the tsar and sentenced to Archangel."

"I could have given myself up and received the same sentence. I could have been banished thither and have joined her there. And I refused. Do you know why I voluntarily cut myself off from sharing her exile? For Russia's sake. For Russia's sake, and because, while free, I could still fight for liberty, I hid from the soldiers, I worked in Russia for the cause. Every day I have hoped for capture; and every day I have worked like a mole in the dark to avoid it—for Russia's sake."

"And when at last the tear laid hold of me and I was sentenced to Archangel, all my heart leaped up. I knew she was not dead. Had she died I should have felt and known it. I always knew that somewhere my wife lived, waiting for the day of reunion. And all through the voyage on the Potemkin, I was happier than I have ever been before, because I was going to her and should see her again."

"And you, you fool, have ruined this! You have given me back my accused liberty, and once again I must return to Russia to fight for freedom."

Nikolai had signaled to me in the midst of this tirade and I had understood. I went into the vault and led the woman up the stairs. I think she saw him first. Her face grew even paler than the prison pallor had bleached it. Then a flush spread over her cheek and throat. I caught Nicholas by the arm and spun him round. At first he gazed at her with incredulous eyes; then he drew toward her, wonderingly. She held out her arms. I turned and left them.

On the next day we pulled out to the yacht and put our crew aboard. There was nothing but joy among us all at the prospect of departure from those gloomy shores, for already winter was at hand and ice floes choked the sea. There was no time to be lost. We set off southward down the Norwegian coast toward a land of sunshine. I never saw a happier couple than Nicholas and his bride. Only one thing saddened me: both announced their determination to return to Russia to take up the people's battle.

"It is right," said Nikolai. "That is their only happiness in life. And some day through their efforts and those of their comrades, the land will find its peace again."

Upon the rocky shores lay the wreck of a mighty ship—an armored vessel. Through the glasses I could make out the name Potemkin on the stern.

She lay half submerged among the lapping waves. There was no signal, no sign of life on board. Had a man survived that sudden wreck he must have perished in the boisterous surf. Nikolai, standing by my shoulder, smiled grimly.

"Look at the lighthouse," he answered to my unspoken question. And then, looking backward, I saw no light.

"Yes," said Nikolai, "that is my work." And then he told me what he had done in the tower on the preceding day.

With his blood-thirst unsatisfied, he had crept up and shifted the great lens from the middle to the side compartment. The light, cut off from the open sea, now flared at an angle of ninety degrees, invisible from where we were, but clearly discernible round the arm of the coast. The captain of the Potemkin, ignorant that the direction of the light beam had been changed, had steered his course by it straight upon the rocks and perished there, with all his crew.

England's many rich men

England's assessed income from abroad, as set forth in the income tax statistics last year, reached the immense total of \$520,000,000, which represents capital of nearly \$13,000,000. These incomes are derived from foreign mines, gas works, water works, tramways, breweries, tea and coffee plantations, nitrate grounds, oil fields, land, financial, telegraph, cable, shipping and insurance companies, branches of banks and mercantile companies, mortgages on property, loans and deposits abroad and profits of all kinds arising from business done abroad by manufacturers, merchants and commission agents. When it is realized how great is the capital invested by Englishmen abroad in these varied enterprises the immense aggregate income, outside that included in the income tax statistics, can be imagined.

According to the same statistics, there are 214 persons in the United Kingdom with an income of \$275,000, which means that there are that many persons possessing a capital of about \$6,000,000 each. But these are not the richest Englishmen. There are 66 with an income of \$500,000 and over, 55 with an income of from \$375,000 to \$500,000, 37 with incomes of \$325,000 to \$375,000, and 56 with incomes of from \$275,000 to \$325,000. Furthermore, there are 4,163 persons with incomes of \$50,000 and over, which means the possession of a capital of \$1,000,000 and more. Consequently the total of persons in the country who possess at least \$1,000,000 does not fall short of 4,751.

Each tray in an egg carrier invented by an Iowa woman opens out at a different angle so that all the contents can be examined at once.

"In the name of God, who are you?"

something of the hatred which inspired Nikolai against the tyranny of the tsar.

But he could linger no longer. Bidding them a hasty farewell, and assuring them of their approaching liberty, Nikolai retraced up the stairs. Out side dawn was breaking. Our man was still on guard; the attack had not been renewed.

"I dared not tell her that her lover is aboard the Potemkin," said Nikolai to me. "Nicholas Stambuloff was captured and sentenced to Archangel; he is one of the six revolutionary leaders—otherwise known as Satcha Alexandrovitch. We must and will restore him and his bride to liberty. And think—for twelve years they have not met."

"On guard!" cried our companion. We heard steps on the rocks; we drew our revolvers and waited. But what was our astonishment when, through the mists, we saw our two companions of the yacht and the three Russian soldiers conversing amicably together as they approached us. A short interrogation convinced Nikolai that the truce was a genuine one. We hurried down and, by the aid of a file which the soldiers gave us, had soon freed the prisoners from their bonds. Then, seated together over a meal, explanations were offered and received.

It appeared that the lighthouse was used as a secret penal station to which prisoners were sent who had been sentenced to the mines of Archangel. The secret had been well kept, and this explained why none of those sent to the frozen north had ever been heard from. They were not there; the cruisers put them invariably up on this desolate rock, where they remained in chains until death claimed them. The soldiers naturally thought

the attack of a hundred desperate men. At all costs the Potemkin must be saved."

"We can save her yet," I answered. "One lens is still unbroken. It was struck from the frame but not shattered. With this we can bring the vessel in safely."

"How?" asked Nikolai.

I took him up into the light chamber. As I had said, one of the three great lenses had remained unbroken. Then I explained my plan. As Nikolai took it in he became greatly excited. He clasped me upon the shoulder and strode up and down the room, vowing that the bride should yet be restored to her husband, from whose arms she had been snatched a short week after the wedding, twelve years before.

This was the scheme. The single lens, set into the central frame, would convey the light straight out to sea and afford a signal for the cruiser. The Potemkin would anchor in the offing, place the prisoners in a boat under a guard, and row them ashore. We should admit them, capture and disarm the guard, and hold them in the vaults. The next party that came would meet a similar fate; and so all who arrived, for even if they suspected any danger, we could defend the lighthouse against a regiment, while the thick fog would render a bombardment impossible. What would probably occur, however, would be that the ship's officers, after the second party failed to return, would believe that both boats had been swamped in the breakers, and would take the ship back to Russia without further investigation.

We raised the great lens into the central frame. We refilled the oil lamp; and once more, though on either of two sides was darkness, through the central aperture a great

would see freedom if never Russia again.

We placed our new captives with the soldiers below and waited for the second boat. But no boat came. With the callousness of the Russian officer, the commander cared nothing for the fate of the crew. If they had perished on that dangerous coast, at least their captives, chained as they were, had died with them. That was all he cared about. At four o'clock we heard four guns fired in swift succession. It was the sign of departure.

Excusing himself, Nikolai rushed up the stairs. I would have followed him, but he signed to me to wait below. When he returned I could gather no information as to the reason of his departure.

We brought our captives, now nine in number, up from the vaults. The situation had already been explained to the sailors by the three soldiers. We offered them a safe passage to England, our destination, whence they could readily ship aboard some boat for the Baltic. As there was no alternative, our terms were eagerly accepted, and once more our enemies were converted into friends. I congratulated ourselves upon the termination of our adventure—bloodless, save for the death of our two men the night preceding.

But when at last Nicholas Stambuloff understood the situation he turned upon Nikolai like a madman.

At first his anger was incomprehensible to all of us. Nikolai, soothing him as a child, told him that presently he should meet some one whom he would be glad to see.

"There is nobody whom I would be glad to see," raved Nicholas. "Do you know what you have done, you bound? Listen, and I will tell you.

Jimmie's Conclusion.
Little folk frequently manifest unexpected powers of observation and analysis. Little Jimmie, for instance, was asked if a young lady whom he dearly loved was pretty. "She looks pretty to me," he announced, after a brief period of consideration, "but I don't s'pose she's really pretty. I notice Brother Ben don't sit by her side an awful lot when she comes here."

"Cured"

Mrs. Jay McGee, of Stephenville, Texas, writes: "For nine (9) years, I suffered with womanly trouble. I had terrible headaches, and pains in my back, etc. It seemed as if I would die, I suffered so. At last, I decided to try Cardui, the woman's tonic, and it helped me right away. The full treatment not only helped me, but it cured me."

TAKE

Cardui

The Woman's Tonic

Cardui helps women in time of greatest need, because it contains ingredients which act specifically, yet gently, on the weakened womanly organs. So, if you feel discouraged, blue, out-of-sorts, unable to do your household work, on account of your condition, stop worrying and give Cardui a trial. It has helped thousands of women—why not you? Try Cardui. E-71

HANDLING THE DAIRY BRED BULL

The news press has contained several notices recently relative to loss of human life by attacks of dairy bred bulls, says the Kansas Farmer. This brings up the question as to whether or not bulls of dairy breeding are more inclined to viciousness than are those of beef breeding.

It is our judgment that males of dairy breeding are much more so inclined than males of beef breeding. It must be remembered that the dairy bred male is of nervous temperament. Beef bred males are of what is known in humans as the lymphatic temperament, being symbolical of sluggishness. This difference in temperament does not necessarily imply that all dairy bred males are vicious and unsafe.

It is said of the pure bred Guernsey sire that he is able to stamp his breed characteristics on other cattle. The Guernsey is a producer of milk of high quality and of a rich yellow color. In many respects they resemble the Jersey, being noted for the high per cent of butter fat in milk produced. As a butter making cow there are few that surpass the Guernsey. Pilot of the Glen, whose photo is here reproduced, was champion bull of his breed at the Illinois state fair.

However, it does account for a much larger percentage of them being so than in the case of males of beef breeds. However, the male of dairy breeds should be carefully handled to avoid the development of viciousness. The herdsman should make a friend of the male. The male should be taught to know that the herdsman is his friend. He should be more frequently handled with a friendly stroke than with the pitchfork. The herdsman should, of course, be firm with him at all times, giving the male to understand that his herdsman is boss. It is our observation that the male cannot be ruled by fear. He can fight and he knows it and he will fight if necessary.

His horns should be removed, and while taking them off in calfhood will result in leaving a head of more shapely form and of greater beauty, we do believe that depriving at the age of twelve to eighteen months has a good effect on him. It has a tendency to take the fight out of him and show him that there are other controlling powers besides himself. Nevertheless the male should be handled cautiously. Persons about him should at all times be on their guard. Every such animal should have a ring in his nose. If he is inclined to be unruly and has the freedom of the pasture a chain or rope dragging in the ring will have a taming effect and will often prevent injury in case he should give chase. The practice, however, of allowing the dairy bred male the freedom of the pasture and feed lot is not a wise one for reasons other than that of danger to human life.

Hog Paralysis.

Paralysis in hogs, commonly but erroneously attributed to kidney worms, is induced by overfeeding and lack of exercise, and especially by stuffing growing hogs on corn, which is an incomplete feed that does not go to make bones. Rickets is present in most cases of swine paralysis, and this may be seen either in young pigs, fattening hogs or nursing sows. Prevent by feeding mixed rations to breeding, pregnant and nursing swine, and let them have abundant exercise at all times of the year. Feed roots and alfalfa hay as part of the rations in winter.

Pig Shelter.

No matter how much nourishing feed is given to them in winter, pigs will not do well if they are not properly housed. Their house should be warm and free from drafts; also well ventilated, and their bedding dry and not too dusty. The pens where the hogs run around in the day time should be well drained. A pen which has poor drainage is a menace to the health of the hogs. This is especially true during the winter.

Rusty Farm Implements.

Rusty moldboards and cultivator shovels are a nuisance, and it requires hours of hard horse and man work to clean them. A little hot paraffin brushed over them when put away keeps the iron as bright as you wish, and the minute you start all goes well.

It Pays to Groom Cows.

A little grooming or brushing will have a great influence on the appearance of the cow. A few minutes spent in this way will pay large dividends in better looks and also in a greater price of farm stock and better returns.

The Womans Club

(Edited By The Womans Club)

The little month of February stands unique in the calendar of the American year because it contains the birthdays of our two greatest men. Though dead, these men yet speak, and their words are for the healing of the nation. The life of a great and good man is one of the most effective of all instruments for the molding of the character of succeeding generations.

We live at our best only when we live in constant touch with the great. The Roman Emperor Alexander Severus had in his oratory no images of gods, but only statues of great men, such as Alexander, Orpheus, Apollonius, Abraham, and Jesus. An illustrious Frenchman of the nineteenth century, into whose soul something of the spirit of the old Roman emperor seems to have passed, constructed a calendar of five hundred and fifty-eight men, representing all ages of nations, who, in the opinion of the maker of the calendar, had made the most substantial contributions to human progress. It was by cultivating reverence for great men and by frequently calling before the mind their exploits and virtues that he hoped to lead humanity out of its weaknesses and distresses into the strength and light of a wider day.

The custom of the old Roman to take down from its niche the waxen image of an eminent ancestor on the anniversary of his natal day sprang from an instinct deep and wholesome. All nations feel that they cannot wisely ignore the past. They cannot let go of the men who lifted the world to a higher level, simply because they are in their graves. They must hear their voice in the clamor and uproar of to-day. In these days, when physical science has cast the glamour of its achievements over the world of things, it is well to remember that great men are among the very chiefest of God's ways and works. He created Shakespeare and Newton and Julius Caesar and Plato. He made them and his hands formed them as well as the dry land.

Life everywhere has a tendency to become monotonous and sordid. We all fall into foolish ways of thinking and unhealthy ways of feeling, and we need the healing touch of lofty souls. Fortunately for us, such souls are always within our reach. We may live in a city, or in a hamlet, or in an isolated farmhouse among the mountains or on the plain, but no matter where we are we can when evening comes sit down and commune with the immortals. The homes of the upper four hundred may be closed to us, but we are always at liberty to dine with the kings and queens of history. It is amazing that so many men and women throw away their opportunities to walk and talk with the great. If it be true that a man is known by the company he keeps, then there is many a person who has reason to be ashamed of himself. A book is nothing but a man or woman, and if one invites into his home flashy and trivial and vulgar writers—the scrapegarages and dabblers of literature—he indicates by his choices the manner of person he is. "Evil company doth corrupt good manners," as Paul reminded the Corinthians long ago, and it is impossible to associate with men, either in the flesh or in books, without being brought somewhat nearer their level. Many a man is today pessimistic because he has read so many diseased and gloomy hearted authors, and many a woman carries an unhappy heart because of the poison injected by the books which she has read. Life is too short to read any but the best books, and that is why the Womans Club has selected their books so carefully and guards them so jealously. Libraries after libraries have been started in Lancaster. Where are the books that were gotten together and the foundation of a good library started in Garrard Female College? What became of them? Who was responsible for them? Where are the foundations of other libraries that have been started from time to time? Echo answers, where? Now we ask, why? Because we never had a librarian, because books were always left open. Because we could take them out and forget we ever had them. We have started a splendid library, we need these books. In the hours of conflict we look around for helpers, and, alas, they are few. It is then we need to pick up a good book, to read of lives of those who met the battle of life without flinching, who took up arms against all vexation and opposition and fought the battle through. We might not now be preparing to celebrate the birthday of Lincoln if Lincoln had not when a boy read and reread the life of Washington. Let us continue to add to these books and guard them jealously for they are for the "healing of Lancaster."

Miss Sara Daniels ably conducted the last musical. Handel, the autocrat, and Hayden, the father of symphony were the subjects. The song of Miss Gracie May Cochran was greatly enjoyed as was also the lullaby song by the children from Miss Brashear's room.

To The Tobacco Growers of Garrard and adjoining Counties:

"Everything is lovely and the goose hangs high." The Madison House Still Doing Business At The Old Stand, Still Leading The Market In Pounds And Prices.

Last week was one of the best of the season with us. We sold during the week, just closed, about, 375,000 pounds, bringing our total sales to over 3,000,000 out about 5,000,000 pounds sold on the entire market. The offerings for the week have been for the most part of lower grades than usual on this market, but prices have been well maintained: all along the line. Good tobaccos are in demand; and when they have appeared, have commanded strong to high prices. Our market has been uniform and strong throughout the season. Some of the best crop averages have been made last week a few of them follow: Smith & Agee sold 4150 pounds as follows:

170 lbs at 17c, 200 lbs at 17c, 220 lbs at 17c, 225 lbs at 17c, 185 lbs at 17c, 165 lbs at 17c, 190 lbs at 17c, 180 lbs at 17c, 175 lbs at 17c, 190 lbs at 19c, 160 lbs at 25c, 265 lbs at 24c, 240 lbs at 24c, 210 lbs at 25c, 235 lbs at 20c, 190 lbs at 20c, 315 lbs at 19c, 290 lbs at 19c. A general average of \$20.00 the thousand. Lee & Doolin 4,300 at 16.20, Deatherage & King 2500 at 15.90, Palmer & Lear 2475 at 16.50 and many more as good.

We must again thank all who have sold with us and all who wished to sell with us and could. We appreciate it all, everything that you have done or that you tried to do for us. If you have any tobacco left unsold, we are on the job all the time and will do everything we can to get prices that will please you. Remember that we have had more experience than has any other market here, and it is yours without the cost of an extra penny. Again thanking you, we are gratefully yours,

Anything worth doing is worth doing well, and a task half performed is better never undertaken. Especially is this advice applicable upon the farm, and their truth is being more thoroughly demonstrated every year. The man who exercises proper care in the management of his farm is the man who realizes the top prices for his farm products. When prices are off a bit, the indifferent farmer, the slip shod, go-as-you-please fellow, is invariably the one who suffers most severely, and it is entirely due to his methods.

Right now is the time to begin farming right. Now is the time for burning your plant beds, and a hearty, thrifty plant is just as much a necessity to a good tobacco crop as good land upon which to grow it. Therefore, if you do not know how to properly prepare your bed, do not hesitate to ask your better informed neighbor. Next is the selection of your seed; do not make the mistake of planting just any old seed simply because it was obtained without cost, be sure your seed is of a thrifty variety, one that commands a good price on the market, and that it comes from a good crop of tobacco. Suppose it does cost you a dollar an ounce, which is the prevailing price for good seed, it is cheaper and better in the long run than seed from an unknown crop or variety, which you have perchance had given to you. With the sowing of your plant bed your work has only just begun, and from now on you will be called upon to exercise, not only your muscles, but your brain, for brawn alone does not raise good crops. You will say, "well I have been raising tobacco all my life," suppose you have, have you been getting top price for your crop, if not, it is more than probable due to your lack of knowledge on the subject, and you can without lowering your dignity in the least, well afford to seek the advice of those who have received top prices for what they raise.

Garrard county holds the record for raising the best tobacco in the greatest tobacco raising state in the Union, and those men who have helped to make that reputation will gladly impart what information is necessary to their less informed neighbor, so do not hesitate to ask.

We have the soil, we have the seed and we have the muscle, and all that is lacking to make every crop bring top prices is reasonable conditions and a proper knowledge of the best methods to pursue. Over the first named condition, we have no control, but the second we have, and we owe it not alone to ourselves, but to our county to make the soil produce the very best of which it is capable.

Good methods in corn raising are just as essential as in the raising of tobacco. Much land has already been broken, and this soil will, as is usually the case under such conditions, be much more mellow than later broken ground, see that the ground is properly prepared, then exercise your best judgment in the selection of seed corn. Last year was "an off year" for corn in the county, and seed will be a little harder than usual to obtain. Do not be "penny wise and pound foolish" along this line, do not hesitate to spend an extra dollar in order to secure high grade corn for seeding purposes.

This advice is not theoretical, it is practical, deduced from the experience of practical farmers, men who have made a lifetime study of farming, and who have proven by actual dollars and cents increase in the value of their crops, that to begrudge a dollar in the matter of procuring seed and stinting cultivation means a ten fold decrease in your profits during the year.

It is greatly to be regretted that Rep. Price's resolution anent the lobbyist was so worded as to be construed as casting a reflection upon some of the members of the house. Regrettably

not only from the fact that it met with ignominious defeat and made of its author "the goat", but that it failed in the object for which it was intended, namely, the seeking out of certain lobbyists, if they are plying their practices at the state capital, and subjecting them to a reckoning. It is exceedingly doubtful if those members who put up such a howl about being reflected upon by Mr. Price's measure gained very much in the opinion of the people of the state by their wall of pretended unjust criticism. Upon the contrary, there are great many who would deem it not amiss were a resolution, framed along the same lines, but framed by some member with sufficient ingenuity to eliminate any semblance of "casting reflections" upon any member or members, and have the investigation of the entire matter, then all who are guilty might have their just punishment meted out to them. Surely none of those gentlemen who think they have been "reflected upon" would be caught in the drag net.

Congressman Stanley Makes Telling Speech At Harrodsburg Monday.

The record breaking crowd for February court day at Harrodsburg last Monday was on account of the speaking date of Congressman Stanley, it being advertised that he would talk to the Democrats of Mercer county in the interest of his candidacy for the Senate at the court house. Before the hour for the speaking the available space in the courtroom was filled. The speaker was introduced by his life long friend, Judge Charles A. Hardin, who mentioned the work of Mr. Stanley in congress and the record he had made, so full of effective work beneficial to the people.

Mr. Stanley told his audience of how he had begun his work for the tobacco growers of the state, with a little band of farmers in his district, and carried his fight through congress and to the Supreme Court of the United States, furnishing the Attorney General with the evidence upon which he convicted the American Tobacco Co., of being a trust. The record of his opponent, Mr. Beckham, while governor, was attacked, and he charged this opponent with approving laws while acting governor which made Kentucky a hot bed for the organization and growth of trusts, and stated that Mr. Beckham could not cite an instance in all his political life where he had helped to relieve the people from the discouraging and oppressive hand of organized wealth. The speaker stated that after his opponent, Mr. Beckham had approved of these trust laws he had stepped down from the Governor's chair to the employment of the Louisville & Nashville Railroad Company. In this connection Mr. Stanley denounced as a wanton, groundless and malicious falsehood the story that was being circulated by a certain local Journal published in Central Kentucky, that he had been the employed attorney for the I. C. Railroad. He charged Mr. Beckham of being the Trust candidate, the reactionary candidate for the Senate. The speaker declared that he cherished the opposition of Richard W. Knott and the Louisville Post. That this paper fought Goebel and encouraged the "peaceful army" that sent the bullet to that martyrs bosom, it had fought Bryan and Ollie James and helped Taylor and Taft and Roosevelt and was now trying to pose as a democrat, and that the speaker wore the unrelenting hate of this paper and its editor as a badge of honor.

Mr. Stanley was well received and his speech was many times vociferously applauded.

In Defense Of Father.

"Every now and then father will come across a little baby shoe when he is rummaging through an old trunk. To him it is only a cheap little bit of kid that was worn by a little tad who got sick and died. He can't see why my mother keeps it. But to mother the shoe has warm lips moist with her kisses, little hands that cling lovingly to her breast and little eyes that look into her very soul and understands her sorrow." The above appeared in one of our most valued exchanges and brought forth the following comment: Here is where we call for a new deal for father. Mother is all that has been said, and more, God bless and keep her. Father is all that has not been said. I know men who rush away into the dark and grieve on their knees with their head in their arms, because a little baby died a long time ago. And after that they come out and face the world smiling and brave, and the world doesn't know. I know a man who carries a little daughter's little shoes in his grip when he goes out upon the road, and sleeps with it beneath his pillow, and I know many fathers who will never be comforted this side of the grave. Let us still love and cherish mother, but let us also give father credit for being at least half human.

Honor Roll.

We thank all for not only checks, but the words of encouragement, and hope to prove worthy of all the good things you say to us. From far away California comes the message that not even the flowers and sunshine take the place of the Central Record when it is due. One of our girls writes she reads it as religiously as she does her bible. Still another writes that they take ten papers but the Record is the best. We ask all our subscribers to look on the label of their paper and if you are in arrears, come across as did the following:

Sam Sutton A. R. Denny.
A. D. Lee S. M. Turner.
C. D. Turner J. R. Pierce.
J. E. Seale Dr. G. H. Rose.
Mrs. R. C. Brewer J. H. Posey.
W. A. Yantis.

Where The State Funds Go.

The Senate Probe Committee last week began an investigation of the management of State University, Lexington. They had before them Hywell Davis, Business Agent for that institution and he furnished them the following startling facts; he admitted that he was drawing a salary of \$1500, from the University and \$1500 from the Experimental Station and that he also drew a salary of \$100 per month as president of the Kentucky Coal Operators Association, but said that he had arranged to sever the latter connection. He testified further that Mrs. R. L. Stout drew \$1500, per year for two hours per week teaching physical culture, but performs other duties besides teaching the pupils; Mrs. Eliza Kincaid gets \$1000, for delivering thirty five lectures a year; Judge W. T. Lafferty draws \$1900, per year as Dean of the Law School, \$1000, per year for duties as Controller and an additional \$500, for legal advice to the food department of the Experimental Station. He testified that Prof. F. Paul Anderson who draws a salary of \$2000, from the institution, also maintains a private business as an architect, and also that Andersons firm has been paid architects fees by the College. He said that Will Garland had been paid \$1800, for 600 hours work, \$3 per hour, for endeavoring to install an improved system for keeping the institutions fiscal affairs, but that Garland had failed to improve affairs and he, Davis, had recommended his release. Davis said that the University had spent the Peabody fund of \$40,000, which was a trust fund from which they were to only derive the proceeds, but that it was their intention to replace it when their allowance from the state would permit; in addition to this he said the institution had overdrawn its bank account \$36,000, and was now \$76,000 in debt.

A measure has already passed the Senate and if passed by the House and approved by the Governor providing for an entirely new system, and it is to be hoped greatly improved system, of disbursing the funds appropriated by the state to the various institutions.

Bryan Dyehouse May Die As Result Of Knife Thrust At The Hands Of Richard Spivey.

On last Sunday night on the Mt. Hebron pike near the home of Mr. Thomas Doolin, a difficulty took place between Richard Spivey and Bryan Dyehouse, the former stabbing the latter with a pocketknife; the wound is on the left side above the clavicle and is considered a very dangerous one.

The affair is one of the many affairs of the kind which seem to occur without previous malice and are due directly to whiskey. The men had been heretofore good friends, even up to the time of the stabbing; they had been to Bryantsville and bought blind tiger whiskey, of which they had both partaken pretty freely. Just what led up to the trouble is not known, and will not be until the examining trial, which will be held next week. The injured man was taken to his home where he remains in a critical condition.

It was first anticipated that there would be some trouble in capturing Spivey, and a citizen telephoned to this effect to Sheriff Robinson's office, and Mr. George A. Ballard and Luther Herron hurried to the scene. However, Spivey made no resistance and was brought to town and lodged in jail. He was brought before Judge Arnold on Tuesday and his bond fixed at \$2,000, which he was unable to give, and remains in jail. Spivey is 23 years of age and has a wife and two children, while the injured man is 18 years old and unmarried.

This but adds one more to the long list of tragedies which have occurred in the northern end of the county and are attributable to the illicit sale of liquor in that vicinity. The county authorities have made every effort to stamp out this traffic, and have in a measure succeeded, but as one is stamped out another springs into existence, and the existence of the new source of supply does not become known until trouble occurs as the result of its operations.

Card Of Thanks.

Mrs. Emma Kauffman greatly appreciates the help and sympathy extended her by friends during her recent loss by fire.

Mr. Robinson Prospering.

A letter from Mr. J. Fleece Robinson of the live stock firm of Warfield & Robinson, Macon Ga. gives the pleasing report that Mr. Robinson is both pleased and prospering. To use his own words "We are having a good trade and I am more than pleased with this as a trade point". Mr. Robinson takes occasion to drop a bouquet into the Record's basket, saying it is the "best ever".

Paying Dividends.

The Metropolitan Life Insurance Co., through its local agent Mr. Henry Simpson is paying the annual dividend to its industrial policy holders in this and Lincoln county this week. The amount distributed will be about \$500, and when you take into consideration the fact that all of the industrial policies are for small amounts, this is a goodly sum. The dividend will certainly prove acceptable to the policy holders.

Noted Case Decided.

The Court of Appeals decided last Friday that it was illegal to have quail in possession between January 1st and November 15th, whether exposed for sale or not. The decision was given in the case against the Phoenix Hotel Co., and their defense was that the game was shipped from Chicago, but the court held that this was no excuse, as the fact of their being in possession rendered them liable. The case goes back to the Fayette Circuit court for another trial. This case has created great interest among the sportsmen of the state.

Took Honeymoon Together.

Mr. and Mrs. W. K. Hewey of 1017 North Topeka Ave. have as their guest this week Mr. and Mrs. Howard Rice of Richmond Ind. Mr. and Mrs. Rice, Mr. and Mrs. Hewey were married on same date twenty nine years ago. The Heweys in Missouri and their guests at Danville Ky. The two couples took their wedding trip together, touring the blue grass state. This is the first time all four have been together since that time and the reunion is almost equal to a second honeymoon. A number of informal entertainments are being given to Mrs. Rice.—Wichita Beacon.

City Council Meeting.

The City Council held their regular monthly meeting on Monday night, Aside from the usual routine business, such as the paying of bills etc, little was done. The Council ordered the purchase of a dozen meters to use at the mills, the creamery and several other places who pay for their water by the thousand gallons, and in the event that there is an abuse of the water privilege during the coming summer, one will also be placed in connection with the water pipe of any citizen who is suspected of such misuse. Nothing was said relative to the proposed change in the lighting system, and nothing is as yet before the Council in regard to this matter. However, the matter is being agitated and a great many of our citizens have given their opinion in regard to it, either to the Mayor or some member of the Council, and when the matter is brought up, which is thought will be in the near future there will be a pretty general expression of public opinion as to just what should be done. The Council seems to be working in perfect harmony and prepared to do what is very best for the welfare of the community in every instance.

Dr. Pryor Answers Questions Of Garrard Farmers.

Having been asked the question repeatedly as to whether there is any contagious diseases among live stock in Garrard county, I make the following answer.

There are a few cases of strangles, (which we terms old fashioned distemper,) prevailing, which should not be looked upon seriously if proper precautions are used. I would advise that upon discovery of any suspicious symptoms with horses, mules, jacks or jennets that they be at once isolated or separated from all well stock.

The treatment is simple and consists in a thorough renovation of the system, though the intestines and kidneys to eliminate the system of all poison which always accumulates.

The rest of the treatment is in toning up the system and restoring it to its proper condition by the use of bitter tonics and restorative preparations, such as Gentian Capsicum, Fenugreek Sulphur, Potassium Nitrate, Nux Vomica, Iron Sulphate, Flaxseed etc. Do not get scared or excited as this disease is customary at this season of the year. And if common judgement and perseverance is used there are but a few cases that should terminate fatally.

Wm. D. Pryor, D. V. S.

Leave orders at Stormes Drug Store for renewals for papers and magazines. Get my catalog prices.
8t-pd. Mrs. Dollie Brown,

I take this method of extending my heart felt thanks to my relatives and kind friends who so kindly aided and assisted in my dear husbands illness. I shall ever remember their kindness. My home looks sad and lonely without him. May Gods protecting hand guide the bereaved family all their remaining life. Mary S. Clark, wife of the deceased.

Mr. Elkin In The Land Of Sunshine And Flowers.

Mr. R. L. Elkin, the Business Manager of the Record, left last Thursday for Atlanta Ga., where he joined Dr. W. S. and Will Elkin, and the trio went for a short stay in Florida. Mr. Elkin is expected home this week. This is certainly a nice trip and one which the B. M. surely had coming to him, for during the last year he has had just about all on his hands that one man can possibly attend to, and the week of recreation will prove very acceptable to him.

Thieves Worrying Our Neighbors.

Over at Stanford one night last week thieves effected an entrance into the store of Mr. W. K. Shugars and gave it a thorough ransacking. Mr. Shugars was unable to say just exactly what they secured, but there was nothing of very great value taken. The Interior Journal office was also entered the same night, but they evidently quickly reached the conclusion that they had entered the wrong pew and that a newspaper office was "poor picking" for they were satisfied with appropriating a brace and bit which was on a table in the rear of the office. On the following night the postoffice at Crab Orchard was entered and considerable money and stamps was taken. In the latter instance the safe was blown and the job had every appearance of being the work of professional cracksmen.

"Sage Of Woodford" Hon. Joseph Clay Stiles Blackburn Lands Position Vacant By Sen. Cullems Death.

At the solicitation of Sen. James, and within the short period of five hours on Tuesday Hon. J. C. S. Blackburn of Versailles Ky, secured the position as resident Commissioner in Washington of the Lincoln Memorial, a position made vacant by the death of Ex-Senator Shelby M. Cullom of Illinois, which occurred last week. The President commissioned Mr. Blackburn and the Senate unhesitatingly passed a resolution offered by Mr. James to have the position pay Mr. Blackburn a salary of \$5,000 per annum. "Joe" Blackburn occupies a very warm place in the hearts of many Kentuckians, who will be delighted to hear of his being the recipient of this juicy plum.

Prominent Young Men Of Harrodsburg Have Automobile Accident Which Proves Fatal To One Of Them.

While returning from Lexington in an automobile last Sunday night, Lisle Edwards and Buford Terhune, prominent young men of Harrodsburg, met with an accident which resulted in Edwards' death and Terhune in a serious condition. When a short distance out of Lexington the machine in some manner became unmanageable and Edwards who was driving exclaimed "I cannot turn the steering wheel" and almost simultaneously with his exclamation the car went over an embankment, turned bottom side up, pinning both young men under it in the bed of a small creek. This must have happened about eleven o'clock as the young men left Lexington about ten thirty for their home. They were not discovered until six o'clock next morning when a passerby noticed them and telephoned to Lexington for aid. The Lexington police automobile hurried to the scene and quickly released the imprisoned men, but Edwards had evidently been dead several hours when aid reached them. Terhune was unconscious, but regained his senses on the way to Lexington and related how the accident occurred. He said that Edwards called to him frequently during the night and said, "Bufe get me out of here, I am dying." Edwards died from exposure. Terhune was severely shocked from the terrible ordeal but will recover.

Young Edwards, the dead boy, was about 21 years of age and was the son of Mr. George W. Edwards, cashier of the State Bank & Trust Co of Harrodsburg, who was so utterly prostrated by the terrible news that he was unable to go to Lexington. Young Edwards was employed in the bank of which his father is cashier. Terhune is 26 years of age, and is a son of Bowman Terhune a well-to-do Mercer county farmer, and is employed in the tobacco warehouse at Harrodsburg.

Sanitary

Glen Lily FLOUR.

PURE

Wholesome

CLEAN

Why Clean?
Because the Wheat is first screened, then washed and scoured.

Why Pure?
Because everything impure is removed by our new process of cleaning.

Why Sanitary?
Because under high Vacuum pressure to extract all dust and dirt under which the Wheat goes, renders it so.

Why Wholesome?
Because everything is separated from the pure nutritious part of the Wheat Kernel.

After expending several hundred dollars and months of hard work, we now announce with pride the above results.

My Chalmers auto practically good as new. In perfect mechanical condition. Varish and paint bright and polished just as it came from factory. Four perfectly new unused tires not even soiled.

This car has never been wet and top has never been laid back but is perfectly clean and creaseless.

Reason for selling want a new Six cylinder 1914 Chalmers.

J. E. Stormes,
Lancaster, Ky.

The Same Good Cheer And Hospitality

Still Obtainable In Old Garrard.

Mr. A. A. Surber, 75 years of age, a resident of Junction City Ky., writes interestingly of his experience in Garrard county over fifty years ago. His communication is taken from the Picaune of recent date and is as follows:

"In the Summer and fall of 1862, I taught school at Gunns Chapel, Buckeye Ridge, Garrard county.

I arrived the 1st Sunday in July at Nelson Teaters where I had engaged grub for myself and pony for 3 months, my pony to pay \$1.00 a month for his grub and I \$1.00 a week for mine. The pony waded in Bluegrass to his knees and I waded in fried ham and red gravy with big puffed up biscuit to my elbows."

Nelson Teater was one of those genial old farmers noted for his Hogging down cern and raising Blue Stem Wheat, Aunt Permelia, God bless her, no better housekeeper and no better cook ever rattled a stove lid. I imagine that if I had about 3 pieces of that ham and red gravy it would cure this terrible Stomach trouble in spite of all the doctors.

Well I retired early and had sweet dreams of the fried ham and the red gravy that was mine for the next three months.

The 1st Monday in July with God speed in my effort to teach young ideas how to shoot when I arrived at the log school house situated on a nice, beautiful grass plot with plenty of shade for comfort. By nine o'clock I had 32 bright and happy faces enrolled.

There were three peculiarities about this school that I challenge the pedagogues of this day and time to meet. 27 out of the 32 were red headed, 30 out of the 32 were brothers and sisters and cousins, the other two, a boy and a girl, I was told lived with their parents down near the Kentucky river in the trunk of a yellow poplar tree, bright children they were, time wore and I heard no more from them for about 23 years, the boy became a prosperous young farmer, the girl married a sober, steady young man and was queen over her little household of three children, as the school was kept on till the evening after the battle at Richmond, Ky. Three gallant Knights of the Confederate army rode up to the door, dismounted, and stood looking around, they offered three cheers for the nest of redheaded Peckerswoods and turning to me said: "you will have to watch these very carefully or you will find some of them burrowing into some of the sugar trees" turning to me again and thinking that I was of military age they ordered me to raise my hand and they administered the oath of allegiance to the Southern Confederacy I did so and was glad to get off so easy. Oh! the fried ham and red gravy I will never forget it.

New Grocery Firm.

Mr. W. S. Carrier has purchased a one half interest in the business of Mr. W. A. Dickerson, and the firm will hereafter be Dickerson & Carrier. The stock is now being invoiced. This will make a strong firm, and they will be strong contenders for the business in their line. Both of these gentlemen are well known and justly popular throughout the county.

No One Is More Capable Of The Task.

The late Samuel J. Roberts, peace to his ashes, made of the Lexington Leader one of the best newspapers in the country, after his death his plucky wife took upon her shoulders the immense task of carrying out her husbands work, and did remarkably well, but the Leader with Harry Giovanelli at the helm is surpassing any previous efforts of that good sheet. Harry is a born newspaper man, and we are unable to see how he contented himself so many years out of the harness.

Jack Dunn, Married.

Miss Irene Sanders of Nicholasville and Jack Dunn of Lexington were married in Danville Tuesday and left at once for Louisville, from whence they will go south for a wedding tour. The bride is the daughter of Mr. Letcher Sanders recently appointed to the revenue service in this district, and who for many years was circuit clerk of Jessamine county. The groom is the only son of Mr. and Mrs. Jeff T. Dunn, who resides in Lexington, but who formerly lived near Bryantsville in this county. Jack is well known in Lancaster, where he was formerly in school.

Sixty Acre Crop Of Hemp Being Delivered To Local Dealers.

The authors of the various press comments in regard to the dwindling of the hemp industry in Kentucky would doubt the correctness of their inferences could they see the big crop being delivered in Lancaster at present. Mr. James B. House, a veteran hemp grower and a very successful one, is just finishing the delivery of a crop of sixty acres, which he sold to Messrs. Hudson & Hughes, the local dealers, receiving therefor \$6.50 per hundred. The crop is turning out about 900 pounds to the acre, and was raised on a part of the old Beazley Bros. farm on the Lexington pike. Mr. House has already contracted for sixty four acres of ground to go in hemp this year, and will probably cultivate more than that.

Representative J. R. Mount Sent Petition By Local Citizen.

Much opposition to Senate Bill No. 109 known as the Glenn Bill purposed to deal with the regulation of Insurance Companies has developed in this city and community. A petition was gotten up and circulated on Wednesday and was signed by every county official, all the city officials of Lancaster, all the officers of the three Banking institutions of the city and in addition by 109 of the leading business men and citizens of the community calling upon Hon. J. R. Mount and Senator Chas Montgomery to vote against this bill and to take immediate steps to assist in the defeat of the measure. These petitions were mailed to the Representative and the Senator at Frankfort.

Here's Their Opportunity.

On Tuesday in the House of Representatives the bill to reduce the pay of the members of the Legislature from \$10 to \$5 per day was tabled by a vote of 61 to 16, which rings its death knell. As to the justice of this action, we do not pretend to say, but we do say that the sixteen members who voted against tabling the measure now have an excellent opportunity of immortalizing themselves in the eyes of their constituency and the world at large. If they are of the value of their services, do not need the money, or have conscientious scruples about accepting it, let them donate the amount in excess of the amount they would have fixed as their pay to the various charitable institutions of the state. This course would not only ease their conscience, but would prove of great benefit to the institutions who would profit by their generosity, who would arise and call them blessed, and would strew their graves with flowers when they have passed to their great reward.

The Kentucky Legislature.

The Legislature if beginning on the second and last month of its present session. The good accomplished so far does not make such a showing, but there are many measures being rounded into shape, which are calculated to prove of inestimable value to the Commonwealth. The deliberations of the body is of a necessity slow, bills must go to committees, be passed by first one house and then the other, all of which consumes time, but we believe along toward the close of the session many remedial measures will be in shape for passage. A bill calculated to put into effect in the state the recent anti-liquor shipping bill passed by the National Congress, has passed the Senate, as has also a drastic "anti-pistol totting" bill, the latter making the second conviction a penitentiary offense. The House Committee on Revenue and Taxation will report a measure today, without comment. This is one of the most important measures before the session, and its final disposition will be watched with keen interest. Many important measures have already passed both houses and when they receive the governors signature will become laws, and many others of equal and perhaps greater importance are expected to pass in the near future. Upon the whole, the session is expected to result in much good to the state.

School Notes.

(By Wm. F. Miller.)

The pretty weather has brought forth Base Ball and Bats.

School will now begin at 8:15 instead of 8:30 this hardly fair to the country children.

Bro. Politt was a visitor at our school Tuesday and gave us an interesting talk.

Miss Mason's room entertainment was very much enjoyed by the school Friday morning.

Those who as yet have not paid their teachers for their part of the "Grapple" please do so today.

Miss Nolands room will entertain Friday morning at 8:15. The public is cordially invited to attend.

Mrs. J. E. Dickerson and Randolph and Mrs. Woody Burnside were Friday morning visitors at our school.

The "Harmonic" Society meets this Friday at the school Auditorium at 3 P. M. all the members are urged to be present.

Class Pins—Class pins have been ordered by the seniors '14 by Miss Patsy Kinnaird, the senior class Secty. These pins are 14 K gold and considered very handsome by those who have seen them.

Pictures—Horace K. Turner's Exhibit of pictures consisting of 200 pieces of the best of Art will be on exhibition at the School Auditorium from Feb. 11th. to the 14th. A small admission fee will be charged to see them. For further particulars ask Mr. Caner or read next weeks paper advertisements and the School notes.

Spelling Match—In the near future there will be an old time spelling match at the School Auditorium. The Public is invited to spell and the words will be given out of the "Old Time Blue Back Spelling Book" and a small admission will be charged those who do not spell, the proceeds to go for the benefit of paying on the Grafanola and buying new records.

Rella Arnold.

For Sale.

I wish to sell privately my farm containing about sixty acres of land, well watered and located 44 miles from Lancaster on Danville pike and 7 mile from pike near Dix river; also a six year old bay mare, works and drives well and brings good colts every year.

Three jersey heifers, fresh last of March or first of April ten good ewes and one buck, all young and will lamb about March 16th.

Jerry Bland, 2-mo-pd. Lancaster, Ky.

Public Sale

As administrator of the estate of Mrs. J. E. Lynn, deceased, we will offer at public sale, on

MONDAY, FEB. 9 1914,

at 2 o'clock P. M. (County Court day) in front of the court house in Stanford Ky., 80 acres of blue grass land, located on the Somerset and Ottemheim turnpikes, 3 miles south of Stanford; 50 acres of this land is virgin soil, the remainder having been in cultivation only two years, now sown in wheat and timothy. Situated in a good community well watered, will produce corn, wheat tobacco or hemp. Will be offered in two tracts, and then as a whole, and the bid realizing most money will be accepted. 1st. tract, lying east of the L. & N. R. Co., and containing 66 acres, more or less. 2nd. tract, lying west of the L. & N. R. Co. and containing 14 acres, more or less.

TERMS one-half cash, remainder in one and two years, equal payments, notes bearing 6 per cent interest. For further information call or address.

J. M. Mount, Lancaster, Ky.

W. Logan Wood, Danville, Ky.

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and cures Colic, Feverishness, For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

In Use For Over 30 Years

The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

Use Kerosene For Farm Engines

Kerosene can usually be bought for about half the price of gasoline and

Fairbanks-Morse Jack of all Trades Kerosene Engines

will develop as much power on a gallon of kerosene as on a gallon of gasoline.

Bear in mind that in a Fairbanks-Morse kerosene engine you have one you can absolutely rely upon. They are fully developed and will do all we claim for them. Our patented double fuel tank reservoir makes them easy starting even in cold weather and does away with any adjusting for varying loads.

While designed especially for kerosene these engines will use either kerosene or gasoline economically. Very simple in construction. All parts accessible. Quiet, smooth running engines that develop full power at low speed.

2, 4 and 6 H.P. Horizontal or Vertical.
Write for catalog No. GD. 206 Other engines up to 500 H.P.

Let Us Serve
Your Wants.

THE SWINEHERD.

Soft coal or coal cinders are relished by pigs and hogs because of the mineral matter they contain.

A rigid system of selection of brood sows should be practiced by all swine breeders.

If hogs are crowded in cold weather in a cold pen they will pile up and smother the weaker ones.

Place feeding platforms at some distance from the pens. In stormy weather feed in the pens.

The hog is pretty nearly all a bundle of money, and he should not be neglected in any manner.

Fatt pigs or any other pigs, for that matter, should be kept off the manure pile during the winter.

SILAGE FOR BEEF MEN.

Excellent For Fattening and For Feeding Stock Cattle.

For a period of four years tests have been carried on with steers at the Wisconsin College of Agriculture to determine the value of silage as a feed for the fattening steer when fed alone with a suitable grain ration or in connection with either good alfalfa or clover hay roughages fed with a grain ration. In every instance it was found that silage lowered the cost of gains when introduced into the ration, and when fed as the sole roughage although gains were not so large as when clover or alfalfa hay was added to the ration the gains were made the most cheaply.

It is unwise for the farmer to feed that because silage is a good feed it can be made the sole feed for stock, says the Iowa Homestead. Its nature is high in water content, low in protein and high in carbohydrate materials. To be properly balanced the ration should contain some feeds that are low in water content and carbohydrate material and high in protein. For fattening purposes a good day's ration for a 1,000 pound steer would consist of from fifteen to twenty pounds of silage, five or six pounds of alfalfa or clover hay, fifteen to eighteen pounds of broken ear corn and two or three pounds of cottonseed meal.

Not only is silage useful to the beef man for fattening purposes, but it is useful for stocking cattle over the winter, and a farm test made upon a Wisconsin farm under the supervision of the College of Agriculture showed an average daily gain of over a pound per day, and the steers came out in the spring in good condition to go on grass. These steers were fed about twenty pounds of silage daily, together with what timothy they would consume. When stocking over young cattle on silage it would be preferred to have clover hay or alfalfa hay, as it is higher in protein than timothy hay.

THE HARD MILKING COW.

Make Sure of the Animal's Value Before She Is Sold.

At the recent meeting of the Oregon Dairyman's association one of the members related how in one instance the testing association had been of help to him, says the Kansas Farmer. In his herd was a short teated cow, to the milking of which the boys objected strenuously.

The cow was sold for \$55 on the promise to pay plan. It was necessary for the original owner to take back the

At the recent international live stock show at Chicago considerable interest centered around the two day milking test of dairy bred Shorthorns. Two classes were arranged for cows in milk, one taking those three years old and over and the other those under three years. Five herds had entries in the first class and three in the second. The highest production record made was 104.9 pounds. The next highest record was 97.4 pounds. Some of the other very good showings were 88.8, 83.2, 82.7 and 81 pounds, all made by cows three years old or over. The best record in the heifer class was 90.3 pounds. The milking Shorthorn cow shown is Eustover Kirklevington, imported by J. J. Hill for his farm near St. Paul, Minn.

cow. This he did, and in the mean time he had joined the test association and his entire herd was on test. The much despised short teated cow set the herd the first month she was in it, with a product valued at \$10.51. When her relative profit as compared with other cows in the herd became known there was not the same objection to the short teated that there was formerly, and the owner was glad he had a chance to get the cow back.

On general principles we do not believe in a man fooling his time away milking a short teated, a hard milking, kicking cow or a cow having other bad habits, but if one realizes that such a cow is highly profitable and may be the best milker in the herd the money income goes a long way toward muzzling her faults. The fact is that the so called drudgery and displeasure of milking cows are to a great extent if not wholly overcome by the realization of good profits from the herd. In other words, if the milker feels that he is being well repaid for his labor and feed he is pleased with his work.

THE BEGINNING OF GOOD BUTTER

More and more I am coming to think that the beginning of good butter lies in the care with which the milk is drawn and how it is treated afterward in the pails, cans and other tin utensils, says E. L. Vincent in the American Cultivator.

It is not long ago that a neighbor told me that a farmer of our neighborhood after milking his cows took the mess to the can he was to send to the creamery and poured it right out without straining at all. I was greatly surprised that in one day and age of the world, with all our papers advocating cleanliness and with all the lecturers going up and down the land showing how important it is that we should be extremely careful how we handle milk if we are to have good butter, that any one should be so absolutely indifferent to the most common points of decency.

I know we cannot strain all impure matter out of milk. I know that at best the strainer is a crutch, but it does help, and no man who wishes to make good butter or to have the milk he sends away to others, either to be used as whole milk or to be turned into butter at the creamery, can afford to neglect the strainer.

As a breed the Ayrshire cow is almost as large as the Holstein, smoother in contour and quite as strong and rugged as any breed of cattle. They are exceptionally good grazers and respond well to good care in cold climates. There is a smaller number of high record cows in the Ayrshire breed than in some other dairy breeds, but it is quite a noticeable fact that Ayrshire herds average high in production. This demonstrates great uniformity in the yielding powers as well as in color marking, individuality, size and breed type. Kinford Belle 111, here pictured, was grand champion Ayrshire at the national dairy show.

ford to forget these fundamental principles. May I name them over as briefly as I can?

Clean food, the very bottom stone in the dairy wall.

Clean stables, a point of the highest value in buttermaking.

Clean cows, milking for the regular use of brush and comb.

Clean men, in hands, in garments, in every habit.

Clean milk pails. These can only be had by carefully rinsing them at once after milking with cold water, following with a thorough washing with scalding hot water and a good clean scrubbing cloth or brush, and then rinsed again with cold water and given a long sun bath.

Clean pans, secured in much the same way as the clean pails are.

Clean covers. Many think they have done their duty when they have washed the cans proper and so forget the covers. Think that milk slops up against the cover on the way to its destination and put no less care on the cover than you do on the rest of the can.

These, as it seems to me, are bed-rock points in the making of first class butter.

Fresh Meat Circle.

For several years we have maintained a fresh meat circle rather than the cooperative plan that is very successful, writes G. O. Brown of Ohio in the National Stockman. As soon as cool weather arrives the plan becomes operative. Usually eight men, heads of families, comprise the company, and one of the men is designated as butcher and paid \$1 for each animal killed, and other members aid in turn. In killing a hog or a beef the carcass is cut as equally as possible into eight parts, and each man takes his turn in the taking of different sections until at the end of the season each family has consumed a whole carcass, all used fresh. In butchering a hog the owner keeps the offal and renders the lard and on a beef does likewise and sells the hide. All differences in weight are settled at a fixed price per pound, and the plan seems to be very satisfactory.

Worms In Horses.

Be sure that your horses are free from worms. A horse afflicted with worms is never thrifty and feed is wasted. A good remedy and a sure one is one level tablespoonful of borax dissolved in a pint of water, given first thing in the morning. Repeat this dose for four mornings and watch results. If a horse refuses the water, mix the powdered borax in the morning feed for four mornings.

Feeding Frozen Roots.

There is danger of injuring cows by feeding them root crops or other foods that have been frozen. If the roots are carefully fed, given in only small amounts and are not decayed there is little danger, and they may be safely fed in this manner.

The Profitable Mule.

Nine-tenths of the objection to the mule is prejudice. For generations he has been regarded as obstinate and vicious when the contrary is true. Cast aside prejudice and raise a few mules and watch the money coming in.

When Buying Baking Powder

For this is the baking powder that makes "the baking better."

It leavens the food evenly throughout, puts it up to airy lightness, and is a healthful and wholesome food.

Remember—Calumet is made in the purest, highest quality.

Ask your grocer for Calumet. Don't take a substitute.

Received Highest Awards

World's Pure Food Exposition, Chicago, Illinois, 1904

World's Pure Food Exposition, Chicago, Illinois, 1904

You don't save money when you buy cheap or big-size baking powder. Don't be misled. Buy Calumet. It's pure, economical—more wholesome—gives best results. Calumet is far superior to most milk and soda.

Personal Stationery

Should be Engraved or Embossed nowadays.

Hyomei Relieves In Five Minutes
 Help Comes Quickly When Hyomei Is Used For Catarrh, Bronchitis Or Cold In The Head.

If you suffer from raising of mucus, husky voice, discharge from the nose, droppings in the throat, sniffles, or any other symptoms of catarrh: or have bronchitis or cold in the head surely use Hyomei. It will banish the disease germs in the nose, throat and lungs and give quick and permanent relief or money refunded by R. E. McRoberts & Son.

The Hyomei treatment gives a tonic healing effect to the air you breathe, destroys the catarrhal germs, stops the poisonous secretions, soothes the irritated mucous membrane and makes a marked improvement in the general health.

The complete outfit, including inhaler and bottle of liquid, costs \$1.00; extra bottles of liquid, if later needed, 50 cents.

COY

Mrs. Mary B. Preston is the guest of her mother.

Mrs. Frank Land is at home now and is getting along nicely.

Mr. Joe Ray has moved to Mrs. Mary Dickerson's house.

Walden brothers from Danville were over to their farm on business.

Dillard Littrell bought a horse from Robert Preston, price unknown.

Mr. and Mrs. Coy Sanders are visiting Mr. Floyd Snyder in Richmond.

Mr. and Mrs. Sam Duncan, of Burgin spent last week with friends here.

Mrs. Nannie Mobly is visiting her daughter, Mrs. Myrtle Speaks near Mt Hebron.

Mrs. Beatrice Johnson was the guest on Tuesday of her mother Mrs. Mary Sanders.

Angle Sanders bought for his mother on court day, a nice horse of J. W. Sweeney price \$115.

Summing Up The Evidence.
 Many Lancaster People Have Been Called As Witnesses.

Week after week has been published the testimony of Lancaster people—kidney sufferers—backache victims—people who have endured many forms of kidney, bladder or urinary disorders. These witnesses have used Doan's Kidney Pills. All have given their enthusiastic approval. It's the same everywhere. 30,000 American men and women are publicly recommending Doan's—always in the home papers. Isn't it a wonderful, convincing mass of proof? If you are a sufferer your verdict must be "Try Doan's first."

Here's one more Lancaster case. Frank Hibbard, Water St., Lancaster, Ky., says: "I had weak kidneys. Their action was irregular and often painful. My back pained me. It was then that I used Doan's Kidney Pills. They fixed me up in good shape. The pains left and my kidneys became normal."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

NEURITIS FOLLOWS CRIPPLED NERVES.
 Painful Effects Of Chronic Rheumatism Quickly Routed by Rheuma.

If your nerves are all crippled from attacks of Rheumatism. Neuritis can easily get a strong hold on the nerves. This most painful disease is one of the hardest know to expel; but RHEUMA can reach it if given a chance. This testimony is positive proof:

"Last March I was so crippled with Neuritis in left limb I could walk scarcely at all. Tried all remedies I heard of and had two physicians. Nothing did me any good until I used RHEUMA; also used ENGLISH MARHUE and NERVALINE—\$2.00 worth of your medicines surely cured me.—Mrs. C. E. Hayes, Russell, Ky.

Sold by R. E. McRoberts a 50 cts. a bottle.

McCREARY.

Mr. J. W. Hill, has returned from Lexington.

Miss Edna Guley is in Lancaster with friends.

Mr. R. L. Burton sold some nice shoats to V. A. Lear.

Misses Bessie and Annie Holtzclaw, are visiting friends here.

We are glad to know that Mrs. Steve Hill is very much improved.

Mrs. Broadus was with her daughter, Mrs. J. W. Hill last week.

Miss Edna Guley has been Miss Lilly Mae Sutton's guest this week.

Miss Annie B. Scrivner has returned home after visiting friends here.

Mr. and Mrs. Jasper Noel are the guests of Mr. and Mrs. Ollie Bogie.

I will pay the highest market price for your produce. C. D. Powell.

Mr. Robert Ward and bride, are the guests of Mr. and Mrs. Milton Ward.

Mr. A. D. Bradshaw is with his parents Mr. and Mrs. T. W. Bradshaw.

Mr. J. S. Askins has returned home after being with his sister, who is ill.

Mr. Brutus Warren and family have moved to their new home near Hackley.

Mr. and Mrs. T. O. Hill were recent guests of Mr. and Mrs. Walker Bradshaw.

Miss Cora Ross left last week for Georgetown where she will attend school.

Miss Lillie Sutton entertained a few of her friends very pleasantly Saturday night.

Miss Mattie Calico is visiting her brother, Mr. Elbert Calico of Teatersville.

We are glad to know that Rev. Taylor of Richmond has accepted as a pastor of the Buckeye church, and we give him a hearty welcome into our midst.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

CARTERSVILLE.

Mr. Tom Green is improving slowly.

Mr. J. D. Carter is doing hustling business.

Mr. J. N. Allen is in Indiana looking for a location.

Dudley Green who has been very bad with Pneumonia is slowly recovering.

Mr. Gilbert Clark and wife were the guest of Mr. and Mrs. C. S. Roop Sunday.

Rev. R. B. Baird filled his regular appointment at the Methodist church Sunday.

Mr. and Mrs. Felix Penington, Mr. and Mrs. A. R. Carter were the guest of Mr. and Mrs. C. S. Roop Sunday.

Mr. Gilbert Clark and wife will accompany Mrs. Sowders to Illinois and also make Illinois their future home.

Mrs. J. T. Sowders will leave this week for Illinois to join her husband there, and will make Illinois their future home.

Mt. Hebron

Mrs. Dannie Scott has been suffering from throat trouble the past week.

Miss Peachie May Sanders of Coy was the guest of her sister Mrs. Henry Montgomery Wednesday night.

Mrs. H. R. Montgomery and children are spending the week with her mother Mrs. Mary A. Sanders at Coy.

Mr. Joe R. Duncan and Miss Ollie V. Crawford were the guests of Miss Maggie Montgomery near Bryantsville last Tuesday night.

The sale of Mr. T. W. Thompson, deceased on last Saturday was well attended, considering the inclemency weather, and most every thing brought a good price.

Messrs Solomon Childers and Hulbert Lawson. Misses Eulalia Montgomery and Eva Vaughn Lawson were the guests of Miss Jennie Ward near Lancaster Thursday night.

Mr. and Mrs. G. R. Montgomery entertained the young people on Wednesday evening in honor of their niece and nephew Miss Eva Vaughn and Hulbert Lawson of Mo.

Mr. Isaac Montgomery surprised his friends here last Wednesday by being united in marriage to Miss Bettie Polard of Judson. They were married at the home of Rev. J. W. Mahan; their many friends here wish them much happiness and success.

Mr. Eugene Clark of Boyle Co. and Miss Amy Hazel Montgomery of this place were united in wedlock Monday afternoon in Covington Ky. They returned Tuesday to the bride home where a bounteous dinner was served and are now with the grooms parents. They have the hearty congratulations of their host of friends here.

ONE DROP

OF BOURBON POULTRY CURE

down a chick's throat cures croup, colds, whooping cough, and prevents cholera, diarrhoea and other chick diseases. One 5c bottle makes 15 gallons of medicine. At all druggists. Sample and booklet on "Diseases of Poultry" sent FREE. Bourbon Remedy Co., Lexington, Ky.

Stomach Upset?

One Drop Will Prevent Further Trouble—It Quickly and Surely Ends Indigestion and Stomach Distress.

Distress after eating, belching of gas and undigested food, that lump of lead feeling in the stomach, headache, biliousness and lack of energy are warning signals of out of order stomach. Now—at once—is the time to stop this distress.

One Drop Stomach Tablets is the remedy. They are absolutely harmless. Get a fifty cent box today. Their use surely and quickly stops stomach distress and improves and strengthens the digestive system so that what you eat is converted into nutrition and the entire system is properly nourished.

Money back if not benefited R. E. McRoberts & Son.

Attention! Poultry Risers.

One of my show birds had the worst case of roup I ever saw. She was almost dead before I noticed it. I purchased a bottle of Bourbon Poultry Cure and I took a feather, dipped it in to the medicine and swabbed out her throat as far down as I could reach. I also put a liberal quantity in her soft feed and drinking water, and today she is well and sound and is laying nearly every day. It is certainly the most remarkable medicine I ever saw. I would not think of being without it and I hope to induce other poultrymen to keep it on hands constantly. Joseph Van Ziegler, State Vice President and Life Member of American Buff Poultry Rock Club, of Indiana and Proprietor of Golden Glow Poultry Yards, 221 W. South Street, Indianapolis, Ind. 50c at Druggists or by mail postpaid. Bourbon Remedy Company, Lexington.

General News.

The prohibitionists will not seek legislation this term of the General Assembly looking to statewide prohibition in Kentucky.

A report is current in Washington that both District Attorneys in Kentucky will be filled by Democrats by next April.

The Court of Appeals has upheld the rule forbidding the reversal of train seats as reasonable and in the interest of public health.

The National Democratic Club in New York passed a resolution demanding that Charles F. Murphy, leader of Tammany Hall resign.

The city council of Pineville Ky. has passed an ordinance prohibiting the dancing of the Tango and kindred dances by her citizens.

Col. James E. Stone Chief Clerk of the Kentucky House of Representatives has resigned his position, having been appointed income tax collector for the state.

The national house by a caucus vote of 124 to 55 declined to appoint a committee on woman's suffrage, and declared that the question was purely one to be settled by the various states.

Ex-Senator Shelby M. Cullom of Illinois died in Washington on Jan. 28th. He was born in Wayne county Ky. and was 85 years of age, and has been in public life for 50 years.

Electric light rates have been reduced in Middlesboro, the maximum rate now being 10 cents and the minimum 7 cents per K. W. with a minimum rate of one dollar to each consumer.

Edwin P. Morrow, District Attorney for the Eastern District of Kentucky, is said to contemplate entering the race for Congress in the Eleventh district. The place is now held by Caleb Powers.

Four students of Bethel College Bowling Green were made seriously ill by partaking of Welsh rarebit made by one of them, which by mistake she had used wood alcohol instead of flavoring extract.

Mrs. J. W. Price, a prominent Louisville lady, and daughter of Hon. Helm Bruce was drowned in the surf of Mississippi sound at Pass Christian Miss., Tuesday. The drowning was accidental. She had been in poor health.

The Public Health Service has submitted a report to Congress in which it declares that in the last six years there has been 50,000 cases of Pellagra in the United States, scattered over a wide area, and asks an appropriation for its eradication.

Ex-Senator J. C. S. Blackburn has strong backing and his appointment is being urged to succeed Senator Shelby M. Cullom as a member of the Lincoln Memorial Commission. The position would require his permanent residence in Washington.

Forty-one lives were lost when the liner Nantucket rammed the Steamer Monroe in a dense fog in the Atlantic ocean last Friday night. The Monroe sank ten minutes after being struck. The vessels were plying between New York and Norfolk.

President Wilson has lifted the embargo on the purchase of arms in the United States and the Mexican rebels now stand on equal footing in that respect with the Federals. This is expected to quickly put an end to the troubles in Mexico.

Under an order of the Interstate Commerce Commission there went into effect Feb. 1st a decrease in express rates on a basis of 16 per cent lower than formerly. Kentucky was one of eleven states to introduce an intra state reduction upon the same basis.

Francisco I. Guzman an envoy of Felix Diaz, who bore a message from his chief seeking to have Gen. Villa desert Gen Carranza and throw the strength of his forces to Diaz, was ordered shot by Villa. He was placed against the wall of Villa's house blindfolded and his hands tied and executed by a rebel soldier.

A committee of officials of the Post office department appointed by Postmaster General Burleson has recommended to the Senate the Government monopolization of telegraph and telephone lines, with the exception of farmers lines. Immediate government ownership of telephone lines is recommended with a system of licensing other agencies of communication.

ATTENTION HORSEMEN.

The horse and jack season is close at hand and "the early bird catches the worm." Stockmen of other counties are already beginning to get out their literature. Do not be behind hand. Get your cards and bills early.

The Record is better prepared than ever to supply your wants along this line. Come in and let us show you, get our figures. We will do your work as well and as cheap as you can get it done elsewhere, and can turn the work out on short notice.

A Dairy Improver. The pure bred bull has done a great deal to improve the dairy herds of the middle west. All states, or at least the principal ones, are reporting an increased dairy production, and the results may be traced to better cows, not more of them.

A Dairy Improver. The pure bred bull has done a great deal to improve the dairy herds of the middle west. All states, or at least the principal ones, are reporting an increased dairy production, and the results may be traced to better cows, not more of them.

HORSE LORE.

Try to turn your horse's back to the wind and blanket him when tying him up.

Give a bran mash Saturday night or Sunday noon and on Wednesday night also if work is slack.

The actual cost to keep added to the service fee of the sire represents the amount at which horses you raise stand you.

Do not forget to salt the horse once a week, or better still, keep salt always before him. He knows best how much he needs.

Be so careful in the choice of a blacksmith that it is not necessary for your horse to wear an interfering boot.

DISEASES OF HOGS.

Worms and Lack of Mineral Matter Often Cause Serious Loss.

Whenever and wherever hog cholera is prevailing all other epidemics to which swine are subject are apt to be classified as hog cholera. Here is an incident that took place in Will county, Ill., which is a case in point. The same is related by the Farmer's Review as illustrating the value of a county adviser.

One day a hurry up call was received from a farmer whose hogs were dying from supposed cholera. Of 300 head but fifty were left, and the external appearance of these did not indicate cholera. The adviser had a sick one killed and immediately made a postmortem examination. The vital organs were found to be in a healthy condition, but the intestines were full of worms. Mr. Granda advised a vermifuge for expelling the worms and the feeding of a mixture of limestone screenings, rock phosphate and wood ashes. This advice was followed, and no further loss of pigs followed. This advice is invaluable to the hog raiser.

Worms and lack of mineral matter are two great causes that contribute to a bad physical condition, which makes pigs susceptible to any disease that may come along, and if they die in any number it is called cholera.

WARDING OFF CHOLERA.

Prevention of Disease in the Hog Herd Better Than Treatment.

There is a farm in central Ohio which is noted for its fine hogs. There are always from 150 to 300 good porkers on it, says the Farm and Fireside. Cholera has raged all about it, but there has never been a case on the farm. It is a farm of over 1,000 acres. No water is used from any source outside the farm. So no infection can come in the water the hogs drink.

One day a neighbor came wandering through the place. The owner halted him and asked him whether the report was true that he came from a farm infected with cholera. The neighbor admitted that his hogs were dying of it. "Then get off my place," said the owner. The neighbor grew huffy. "Well," said the owner, "you wouldn't come into my house if you had small-

pox, would you?" "No, of course not," "Well, then why come into my fields when you come from a farm that is infected with cholera? We are always glad to be neighborly, but we can't afford to pay for calls with our herd of hogs." The neighbor admitted that this position was correct and went away feeling perfectly satisfied.

These hogs run in pastures, but the pastures are exceptionally situated. The Minnesota sanitary board recommends that when cholera rages the hogs be kept in small, dry pens.

"Keep your dog tied," they add, and they might say, "shoot every dog when he crosses your line fence." Disinfect the troughs daily with a 5 per cent solution of carbolic acid. No hog can legally be taken from any stockyard except for slaughter, and breeding hogs when shipped should, of course, be crated and kept out of the stock yards. And when one is brought on the farm from outside it should be kept by itself for at least two weeks. It will pay to put a boy out with a gun during daylight hours to shoot at and kill if possible every plover, crow, mourning dove and English sparrow in sight. They all carry germs from farm to farm. And don't let the hogs drink from running streams or surface water originating outside the farm.

The Yorkshire breed of hogs had its origin in England, where it is very popular, as it also is in Canada. It being raised almost to the exclusion of other breeds. The Yorkshire came to the United States about twenty-five years ago and is recognized as one of the best of the bacon producers. The sows are prolific and are excellent mothers. Butchers who cater to the best trade pay a premium for well fitted bacon hogs. The Yorkshire boar here shown was champion of his breed at the last Iowa state fair.

Mr. H. D. Lee bought two horses at Thompson's sale Saturday.

Mrs. Luther Burdett visited Mrs. Fannie Lee Wednesday.

Misses Bertha and Sallie Lee have been the guest of Mrs. Wade Lee.

Revs. Gill and Naylor are holding meeting at Locks Grove this week.

Mr. and Mrs. Adus Naylor spent Sunday with her mother Mrs. N. Ray at this place.

Mr. and Mrs. Arber Lee from Hyattsville spent Saturday and Sunday with home folks here.

Oh, Do Read This, Suffering Women!

Wonderful ROOT JUICE will Bring You Joys of Health Beyond Your Wildest Hope.

"I could scream with joy and delight at the wonders that this glorious ROOT JUICE has accomplished for me. That is the verdict of hundreds of women. You'll say the same thing when you know what it means to be free from your burden of misery and its aches and nervousness."

You haven't any idea of the grand things this wonderful medicine is accomplishing for suffering women.

What a relief it is to feel when you are free from your burden of misery and its aches and nervousness."

What a relief it is to feel when you are free from your burden of misery and its aches and nervousness."

What a relief it is to feel
